

2824 siaflap

for market-leading performance in steel applications

2824 siaflap

Product profile

Grit type:	Zirconia alumina
Grit range:	36-80; 120-150
Backing:	x-wt cloth
Coating:	Closed
bonding:	Resin over resin
Special coating:	Cooling additive

for market-leading performance in steel applications

A universal abrasive product designed for the surface treatment of unalloyed or low-alloyed steels, the 2824 siaflap flap disc with zirconia corundum and robust cloth backing provides high stock removal rates and long life. A further advantage: consistent surface quality until the abrasive is completely worn.

Advantages

- High performance due to zirconia alumina abrasive grit
- Consistent surface quality until the abrasive is completely worn
- Cost reduction thanks to long lifetime

Abrasive formats

Cloth rolls; jumbolino; siafix discs; fibreglass pad; plastic pad; Spiral belts

Applications

- Weld preparation
- Removing discolouration
- Sanding down
- Surface treatment
- Deburring

Materials

Unalloyed / low-alloy steel

Use

Angle grinder
