

# 2971 siasphere

the high-tech solution for efficiency and quality

## 2971 siasphere

### Product profile

Grit type:	Aluminium oxide
Grit range:	240; 320; 400; 600
Backing:	j-wt cloth
Coating:	structured
bonding:	Resin over resin
Special coating:	Cooling additive

### the high-tech solution for efficiency and quality

The special siasphere series allows metal surfaces to be treated more efficiently and cost-effectively. 2971 siasphere has a slightly stiffer, but still flexible backing, and is ideal for softly contoured surfaces and flat applications where higher stock removal rates are required.

### Advantages

- Long product life
- High stock removal rates with less pressure
- Fewer belt changes
- Shorter finishing time
- Excellent and consistent finish over a long period of time
- Fewer individual operations

### Abrasive formats

#### Use

Contact belt sanding

Power file

Stroke belt sanding

Centreless belt sanding

### Applications

- Surface treatment
- Structuring and final sanding
- Sanding down
- Removing discolouration

### Materials

High-alloy steel; Other hard-to-grind metals; Unalloyed / low-alloy steel;  
Non-ferrous metal

### Technology

- siasphere
