

4561 siabite

the fibre backed abrasive disc for excellent stock removal rates

4561 siabite

Product profile

Grit type:	Ceramic aluminium oxide
Grit range:	36-120
Backing:	Fibre
Coating:	Closed
bonding:	Resin over resin

the fibre backed abrasive disc for excellent stock removal rates

4561 siabite achieves outstanding results and very long life. The highly aggressive and fast fibre disc is ideal for sanding stock removal from unalloyed and low alloy steel as well as non ferrous metals. Another advantage: the firm fibre backing.

Advantages

- High removal rate thanks to ceramic grit
- Very efficient and productive
- Extremely long lifetime
- Firm fibre backing

Applications

- Removing rust
- Welded seam preparation
- Removing discolouration
- Sanding down
- Surface treatment
- Deburring
- Blending

Abrasive formats

Materials

Unalloyed / low-alloy steel

Use

Angle grinder
