

4815 siacut

the fibre disc for aggressive sanding of high-alloy steels

4815 siacut

Product profile

Grit type:	Zirconia alumina
Grit range:	24; 36; 50-150
Backing:	Fibre
Coating:	Closed
bonding:	Resin over resin
Special coating:	Cooling additive

the fibre disc for aggressive sanding of high-alloy steels

As specialist products for high-alloy steels, 4815 siacut fibre discs are suitable for a variety of applications: from general dressing work, deburring and edge chamfering through to the surface treatment of bronze ship propellers. Active cooling ingredients keep discolouration to a minimum.

Advantages

- Aggressive cut
- Firm fibre backing
- Active additives with a cooling effect greatly reduce discolouration

Applications

- Weld preparation
- Removing discolouration
- Sanding down
- Surface treatment
- Deburring
- Blending

Abrasive formats

Fibre discs

Materials

High-alloy steel; Non-ferrous metal; Other hard-to-grind metals

Use

Angle grinder
