

# 1707 siapar

for maximum performance during heavy-duty rotary sanding on  
plasterboard, stone and old paints

## 1707 siapar

### Product profile

Grit type:	Silicon carbide	
Grit range:	16-150	
Backing:	y-wt cloth, cotton f-wt paper	P016 – P036 P040 – P150
Coating:	mechanical closed Electrostatic open	P016 – P036 P040 – P150
bonding:	Resin over resin	

### for maximum performance during heavy-duty rotary sanding on plasterboard, stone and old paints

When it comes to removing plasterboard, stone, concrete, old paints and underseal from wood, 1707 siapar has what it takes: high performance and long life in heavy-duty applications.

### Advantages

- Ideal for rotary sanding
- Fast and safe change of abrasive with siafast hook and loop fastening system
- Very high performance and long life in heavy-duty applications

### Abrasive formats

Paper rolls; economy rolls; siafast strips; Various strips; Delta and polygons; double-sided discs; siafast discs; Various discs; Narrow, edge and long belts (width: 25-399 mm/length: up to 8500 mm)

### Use

Angle grinder

Manual sanding with sanding block

Random orbit sander;  
Rotary sander

Delta sander

### Applications

- Sanding of plaster, stone and concrete
- Sanding of paints, old lacquer and floor sealing
- Keying of solid wood
- Keying of insulating boards

### Materials

Softwood; Hardwood; Old lacquer; Old paint; Concrete; Plastics

### Technology

- siafast
