### the special belt sanding series for coarse dry sanding

The special 2829 siaron y series is ideal for unalloyed steels and non-ferrous metals in stationary belt sanding applications and in applications involving the use of powerfile sanders. It ensures an excellent finish without sacrificing such advantages as high stock removal rates, high edge stability or tear resistance.

### Advantages

- Backing with very high stability and rigidity
- Active additives with a cooling effect greatly reduce discolouration
- Suitable for general use in dry and wet sanding applications

### Applications

- Weld preparation
- Removing discolouration
- Sanding down
- Surface treatment
- Deburring
- Blending
