Coating:	Closed
bonding:	Resin over resin
Special coating:	Cooling additive

for perfect finishing of high-alloy steel

As specialist products for the surface treatment profiles and contoured surfaces made of high-alloy steel and other hard to grind metals, 2948 siatur jj abrasive belts provide a first-class quality finish and offer excellent value for money.

Advantages

- Active additives with a cooling effect greatly reduce discolouration
- Highly adaptable to contours, curves and profiles
- Excellent price/performance ratio
