

4700 siaral 8

with high power output for finishing cast iron and stone

4700 siaral 8

Product profile

Grit type:	Silicon carbide
Grit range:	16; 24; 36-40; 60-150; 220; 320
Backing:	Fibre
Coating:	Closed
bonding:	Resin over resin

with high power output for finishing cast iron and stone

The silicon carbide fibre discs of the special 4700 siaral 8 series ensure high stock removal rates in coarse to fine sanding applications and are ideal for a variety of applications involving hard to grind metals as well as stone.

Advantages

- High removal rate
- Firm fibre backing
- Wide range of grits available for coarse to fine grinding

Abrasive formats

Fibre discs

Use

Angle grinder

Applications

- Sanding down
- Surface treatment
- Blending
- Deburring
- Structuring and final sanding

Materials

Other hard-to-grind metals
