

6924 siamet hd

high-performance discs for surface finishing of steels

6924 siamet hd

Product profile

Grit type:	Aluminium oxide
Backing:	Nonwoven
Coating:	Mechanical
bonding:	Resin over resin

high-performance discs for surface finishing of steels

The high-performance discs in the 6924 siamet hd series offer an exceptional removal rate on hard materials and also impress with their exceptionally long lifetime. An excellent, even finish is yet another advantage.

Advantages

- Major time-saving thanks to highest aggressiveness and highest stock removal rates
- Excellent performance on hard materials
- More durable so more resistant on edges
- Much less smearing tendency than existing products; especially at the edge of the disc when working at tight angles
- Excellent and consistent finish over a long period of time

Abrasive formats

scm discs; siafix discs

Use

Angle grinder

mini angle grinder

Applications

- Blending
- Sanding down
- Light deburring
- Removing polishing scratches
- Removing discolouration
- Removing paint
- Removing rust

Materials

Unalloyed / low-alloy steel; High-alloy steel; Other hard-to-grind metals; Stainless steel (inox); Ferrous metal; Non-ferrous metal; Stainless steel (inox); Steel
