

7500 sianet CER

the powerful net-backed abrasive with ceramic grit

7500 sianet CER

Product profile

Grit type:	Ceramic aluminium oxide
Grit range:	80-240; 320; 400
Backing:	Knitted fabric
Coating:	Electrostatic
bonding:	Resin over resin

the powerful net-backed abrasive with ceramic grit

The special net structure of 7500 sianet CER enables dust-free sanding with the highest abrasive performance – The ceramic abrasive grain provides the highest removal rate and longest lifetime.

Advantages

- Full-surface dust extraction
- No dependence on hole system
- High removal rate without clogging
- High tear resistance, thanks to sturdy net backing
- High-performance product with ceramic aluminium oxide

Abrasive formats

siafast rolls; siafast strips; Delta and polygons; siafast discs

Use

Random orbit sander;
Rotary sander

Manual sanding with
sanding block

Orbital sander

Rolls

Delta sander

Applications

- Sanding down coatings and impurities
- Keying primers
- Fine sanding solid wood, veneers, solid surface materials, priming foil, plaster and plasterboard
- Intermediate sanding of lacquers

Materials

Acrylic lacquer; Old lacquer; Primer filler; Plaster; Priming foil; Plasterboard; Hardwood; Resinous wood; HDF board; Melamine sheet; Solid surface material; NC lacquer; PU lacquer; Polyester lacquer; UV lacquer; Water-based varnish; Softwood; MDF board

Technology

- siafast
- sianet
